**Von Carrie King : Joni-Pip (The Circles Trilogy Book 1) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Joni-Pip (The Circles Trilogy Book 1) (English Edition):

Kurzbeschreibung The American Chronicle: Carrie King has written a brilliant book, (The Life in the Wood with), Joni

Pip, that can stand beside the likes of *Catcher in the Rye*, *The Old Man and the Sea* or *Walden* and not shrink in importance, yet it can be next to *Winnie the Pooh*, *Alice in Wonderland*, *Huckleberry Finn* or *Treasure Island* and seem right at home. *Joni-Pip* is a must for any library; for those who know and love quality writing. *Joni-Pip's* adventures begin when her family moves to Sherwood Forest to escape the World War Two bombing of Bath, England. Ms. King cleverly makes the unbelievable easily believable and sensible. Augmented with drawings and asides to the reader, *The Life in the Wood with Joni Pip* is indeed beyond excellent. Ms. King can and does craft her writing in a spellbinding way. You won't want to put the book down, so be sure you have a good block of time to hide away from the real world to step into the wild, wonderful world of *Joni-Pip*. There's just no way to do this beautifully written piece of work justice in a few sentences. Want to know the secret of the Stars? Want to understand the orbit of life and other secrets of the Universe? You'll just have to get *Joni-Pip* and read it for yourself; then swear to keep them secret!

DAVE BROUGHTON Midwest Book : *Joni-Pip* lives a pampered life with her family in Bath, England, until the bombings of World War II forces them to escape to Knotty Knook, their cottage in Windy Woods on the outskirts of Sherwood Forest. On their journey there, *Joni-Pip* meets three young strangers who suddenly appear, briefly speak to her and then disappear. Unaware they will play an important part in her life, *Joni-Pip* soon forgets about them. At Knotty Knook, *Joni-Pip* and her teddy bear, Ethelred-Ted (who is much, much more than an ordinary teddy bear), explore the woods and visit her grandfather but magical things happen in Sherwood Forest and through what appears to be a tragic event, *Joni-Pip* begins a magical journey through Time. It's hard to attribute any one genre to this wonderful book. It offers readers time-travel, action and adventure, suspense, mystery, science fiction and bits of history. Carrie King's poetic, imaginative prose delivers a delightful book for all ages. Her creative imagination, the gorgeous illustrations and magical story are enthralling. *Joni-Pip* is filled with enchanting characters (animals and human alike), humor and a heart warming tale, involving friendship, family and a quest for a better future. This first book in the *Circles Trilogy* is sure to garner many fans. Readers including me, will be anxious to read the next two books in the series. Certainly, the literary field needs more writers like the talented Carrie King who takes her readers on a fascinating journey as she opens their minds to the extraordinary while delivering a very important message. Here's hoping this fantastic book finds its place in libraries, classrooms, and children's homes across the world.
