Von Laura Peyton Roberts : Just Friends (Clearwater Crossing Book 5) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Just Friends (Clearwater Crossing Book 5) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. As a newcomer to the series I am very pleased!Von Ein KundeI was looking through the racks at the book store just trying

to find something interesting when I picked up Just Friends. I remembered reading in a magazine that Clearwater Crossing was a good series so I thought I'd try it out. Unfortunately, the store didn't have any of the first 4 so I began with #5. I was completely surprised and blown away! I didn't like the book, I loved the book. I've never read anything that comes this close to real life. The situations are highly believable, and are very down to earth. I love how the author can introduce so many emotions, feelings, and characters into one book yet still was able to keep it in a calm, real-life setting. The only thing I was a little saddened by was the lack of Christian faith she wrote into them. The book after all is advertised as a teen Christian series. She did have the characters help out with church and sport Christian examples, but I was disappointed that they were not overly eager to share their faith with non-Christians. However, overall I thought this was an excellent book. I would recommend it to many friends. Somehow I get this feeling that I'll be hooked on the series for awhile. If you're ever in a book store wandering around looking for something good to read, I urge you to pick up Clearwater Crossing. I couldn't put it down, and I don't think you'll be able to either!

Von Ein Kunde
The reason I love clearwater crossing books is that they are so much like reality. This book was sad because I just broke up with my boyfriend and then in the book Ben gets refused for a date so just all of it is sad. Maybe it's me being in an emotional state, but I think anyone having just broke up should read this book. Either to get mad or softened, (it depends on whom broke up with whom) I also know you should listen to soft slow music like jazz or maybe even classical. One think you shouldn't listen to is rock or RB because it'll make your heart beat faster and then you will want to finish the book. Don't rush through Just Friends, take your time to let the words and thoughts linger and be able to really understand what they mean. Maybe you are thinking right now "why should I listen to this wacko" Please don't think of me that way, I'm really a nice person and please take my advice. Cheers to CCHS!

Von Ein Kunde
I haveread every single book in this series and I would just love forthere to be more!!! The first book was great, but this latest book was the best. The budding relationship between Peter and Jenna, the deteriorating romance between Leah and Miguel, and the beginning friendship with Nicole and Jesse, kept me hanging from the start. I loved this book and I can't wait for the next one to come out next year!!

Kurzbeschreibung
Bonfires, pep assemblies, and football: Spirit Week has kicked into high gear at Clearwater Crossing High! All Nicole can think about is getting Jesse to take her to the homecoming dance, but hes not in a partying mood. Nothing matters now that hes off the Wildcats.
Everything matters to Jenna these days. Dealing with her sisters, getting over Miguel . . . more than ever, Jenna needs a friend she can count on. She needs Peter. But has her best friend in the world found someone he likes better?
Ben is on a mission to fit in! He thought being part of Eight Prime would solve all his problems, but hes still invisible at school, and even his new friends dont really seem to accept him. Then Ben hits on a plan. If he can pull this off, hell be the toast of CCHS!

Book 5 of the Clearwater Crossing Series
