Proper perspective for Christian leadersVon Ein KundeThis book is the most thoughtful and humble perspective on active leadership, and its corollary, active followership, I have ever had the pleasure of reading. Dr. Kriegbaum has nailed the balance between the leadership as an external driving force and the leader as a steward. Covering such subjects as Ownership, Delegation, Fear, Reality, Planning, Courage, Failure, Creativity, and Love, he hits all the buttons of those who have been there, but goes on to memorialize the proper perspective which lifts us from mere competence to wisdom. Though his specific situation as a University President is somewhat rarified, his observations are equally applicable to those of us who run a business, or a classroom, or a family. This is very beneficial reading.0 von 0 Kunden fanden die folgende Rezension hilfreich. Integrity of Leadership - Living changing revealings....Von Ein KundePage after page, the words point and paint, with loving gentleness, to deep revealings of hope areas in a life...with Him. "The leaders who champions changes, that sometimes wound, has a unique reason to stay close to those wounded." Followership/Leadership.. Richard has captured deep "meddling" thoughts on leadership, its responsibilities, hopes, effective empowerments....threaded between the lines of our life actions....showing how they might look to Someone else.... It will touch you.....It did me....positively....0 von 0 Kunden fanden die folgende Rezension hilfreich. Extremely inspirational and encouraging support for leaders.Von gpais@aol.comThis book is full of prayers and reflections for those in true top leadership positions. Every chapter/prayer was a solid reminder I needed to hear as I lead the Christian organization I'm involved with. I have used it with my senior staff and we have all found it to very inspirational, freeing us, encouraging us to be the best leaders we can be for the Kingdom of God. The reflections after each prayer are so applicable and practical that I found them very useful.
