A Book I can truely recommend...Von Alexander M.Lleading from the Front is one of those books that I picked up and could not put down until I had reached the end.In a nutshell, it covers the entire military career of General Sir Richard Dannatt. But in such a fashion that not only the positive moments were highlighted, but also those valuable moments

where General Dannatt learned his most important lessons ' under fire, or leading the men who were involved in Combat. I wish that the world had more Generals like General Dannatt, he seems to truly care that his soldiers have the right Kit to get the Job done. It is thanks to him, and his directive to allow for correspondents to cover Afghanistan, that world got a glimpse of what horrendous Battles the British troops faced there. What really impressed me, was the dedication with which General Dannatt and his wife care for the wounded and their families! A Book I can truly recommend! 0 von 0 Kunden fanden die folgende Rezension hilfreich. SIR RICHARD DANNATT Von corinne weis Ich liebe diesen Mann und sein Buch und seine Muthafte Persoehnlichkeit.... Kurzbeschreibung General Sir Richard Dannatt's distinguished career in the army has spanned thirty-eight years and seen him serve in many different theatres of conflict, from Northern Ireland (where he was awarded the Military Cross) to Bosnia and Kosovo, Iraq and Afghanistan. His experiences have forged an unwavering loyalty to the fighting British soldier. As Chief of the General Staff, he was given overall command of the British army at a time when the fighting was fiercest in Afghanistan. But from his very first day in the job, General Dannatt proved himself a courageous leader and a forceful advocate for his men, never shying from controversy to tell the truth as he found it. More than any leader in recent times, Dannatt has used his position of command to get a better deal for the British soldier - the right equipment, the right conditions, the right reward - to do the job we ask of them. His leadership and example have shaped the debate about the role of the professional army in modern warfare. **Leading from the Front** is General Sir Richard Dannatt's reflections on a life of military service which offers a characteristically frank analysis of whether Britain's defence strategy is fit to deal with the numerous threats we will face in the 21st century. **Pressestimmen** "LEADING FROM THE FRONT is both a splendid autobiography and a very modern military history of our times." (Kati Nicholl The Express) **Werbetext** The frank-speaking autobiography one of Britain's most respected military leaders.
