**Von David S. Romantz, Kathleen Elliott Vinson : Legal Analysis** before purchasing it in order to gage whether or not it would be worth my time, and all praised Legal Analysis:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. A Keeper!!Von mike4867@aol.comI just finished my first year of law school and this book made it MUCH MUCH easier!!! Finally, a book that makes a dull topic not only interesting, but interactive!!! Job well done!! A must for

anyone starting law school or needs to know the ins of legal research and writing! Bravo!

**Kurzbeschreibung**The second edition of *Legal Analysis, the Fundamental Skill*, continues to teach students the critical skills of legal reasoning. This popular book is a practical and clear guide that explains the many ways lawyers analyze the law. The authors demystify legal analysis by examining the foundations and methodology of legal problem solving and by discussing the different levels of critical thinking necessary to develop effective legal arguments. The book emphasizes the importance of applying the law as opposed to relying excessively on formulaic methods of analysis. New to the second edition, the book examines rule-based reasoning and the implicit rule; deductive analysis and resolving statutory ambiguity; case-law reasoning and inductive analysis; the role of policy in legal argument; and the structure and variations of legal argument and CREAC. New examples and exercises are also included.
