Minor Correction To Review of Martin DiosdadoVon martin diosdadoI made a Minor Error....Section 18-9-111 of The Colorado Revised Statutes is a Class III Misdemeanor. By "Practice" alone, you will not be allowed access to a Court-Appointed Attorney or a Public Defender. By "Practice" alone you will be forced to complain to your District Attorney by means of "The Barker Test" about your lack of a Speedy Trial without using Profane or Vulgar Language - and about the D.A.'s not inforcing your State of Colorqado and The U.S. Constitution's requierment to your being furnished a Court Appointed Attorney when you cannot purchase one. Don't forget to "Stand Mute" at any Arraignmment" that in the "Street Jargon" the Court of Colorado uses in calling your Arraignment a "First

Appearance". After all, how can you enter a Plea of any kind without your Constitutional Right to the Protection of a Defence Attorney? Don't forget to ask your Deputy D.A. for his/her business card so you can write the same "Barker Test" each week...to remind them that they went to a Law School of some kind, and are thought to be, by many, the Premier in Educated Minds in North America! Once you are done with "The Barker Test" and have somehow acquired a Public Defender, to write the Defender that you will have Letters of Memorandum to remind this Defender of what was said. Note that no one writes notes of conversations any more, and your Defender will need all the help you can give them! Please do not use much in the way of Latin Phrases, as this may scare the Defender into a Default or Reset mode....Once you realize that you can do this as well as any attorney, be very afraid as your do "Discovery" from the D.A.'s office to find out what they have. Many Defenders are very busy

Kurzbeschreibung Legal research made simple! If you're searching for information in a real or virtual law library as a paralegal, law student, legal assistant, journalist, or lay person, finding and accessing the laws that you need to read can be a challenge. Turn to *Legal Research*, which outlines a systematic method to find answers and get results. In plain, readable English, Attorneys Elias and Levinkind explain, with plenty of examples and instructions, how to read and understand statutes, regulations and cases evaluate cases for their value as precedent use all the basic tools of legal research practice what you've learned with "hands-on, feet-in" library exercises, as well as hypothetical research problems and solutions This easy-to-use and understand book has been adopted as a text in many law schools and paralegal programs. The 15th edition has been condensed to be more readable and includes an expanded discussion on the use of legal research tools on the web.. If you take it step by step, the United States legal system is not nearly as intimidating as it is reputed to be. With a little expert guidance from a couple of attorneys (Stephen Elias and Susan Levinkind), you can learn what's in a law library and how to use it, how to seek and understand statutes, regulations, and cases, how to explore online resources, practice your legal skills in the library, and even write a reputable legal memorandum. It's not as easy nor as immediately gratifying as buying an ice-cream cone, but with a modicum of patience, dedication and average smarts, you can research and understand the law without years of legal training and without emptying your bank account onto some lawyer's shiny desk. The text is approachable and easy to read. The authors' sensible approach takes the fear out of entering a law library, reassuring you that you needn't be a lawyer to be there and that the librarians are generally eager to please. By helping you formulate your legal questions (is the issue federal or state, civil or criminal, procedural or substantive?), narrowing your focus through legal indexes, and pursuing the appropriate resources, statutory laws, and relevant cases, the authors bring clarity and structure to the task. Nolo Press is famous for stripping the law of its daunting armor and making it accessible to the interested layperson. This guide to legal research is up to the usual high Nolo Press standards. It's a great boon to those who want to check out the law for themselves. --Stephanie Gold.com If you take it step by step, the United States legal system is not nearly as intimidating as it is reputed to be.
