**Von Roger O. Weed Ph.D. CRC LPC CLCP CCM CDMS FNR : Life Care Planning and Case Management Handbook, Second Edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Life Care Planning and Case Management Handbook, Second Edition:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. This book is an invaluable guide for life care planners.Von Ein KundeThis is an excellent guide and resource book for life

care planners. I have found it to be a great help in writing my own plans and worth the high cost of purchasing it.

Kurzbeschreibung Focused on prioritizing and managing the spectrum of services for people with serious medical problems and their families, life care planning has evolved into an advanced practice. Keeping up with changes in the field, this second edition of a bestseller provides a comprehensive resource for professionals and consumers who need to solve the complex medical care problems of life care planning. The book includes information for the patient, family, care providers, and everyone concerned with coordinating, assessing, evaluating, and monitoring necessary services. It offers an overview of issues relevant to selected disabilities while teaching readers about the roles various professionals play.

Pressestimmen "Dr. Weed accomplishes his goal and provides the field with a definitive resource, not only for the novice and experienced Life Care Planner or Case Manager, but also for the team of medical, vocational, and legal professionals who develop plans/delineate future costs. This text is highly recommended, without reservation (even for those who have the first edition on their bookshelf)!" --Ann T. Neulicht, PhD, CLCP, CRC, CVE, CDMS, LPC, Diplomate, America Board of Vocational Experts in Rehabilitation Planning "a valuable resource with its up-to-date information on the various disabilities and the new chapters on life care planning for individuals with mental illness, elder care management, Americans with Disabilities Act, reliability of life care plans, and medical equipment choices. The addition of these chapters provides information that will assist the life care planner in preparing life care plans for more complex cases. This book does meet Dr. Weed's goal of providing a publication that will advance our profession while providing life care planners with a valuable resource and guidebook for advancing the state of their career." --Doreen Casuto, RN, BSN, MRA, CRRn, CCm, CLCP in Journal of Life Care Planning
