Von Linda Goodman : Linda Goodman's Sun Signs (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Linda Goodman's Sun Signs (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Very GoodVon jmanI don't read my daily horoscope--that's bull. How would anyone know your day just cuz of your sign?However, I was convinced that astrology is for the most part, accurate. Of course--not entirely. I'm sure not every Pisces is creative, not every Virgo is a loner, and not every Capricorn is conservative.Astrology is just a basic generalization that hits most of the targets of a person's personality, according to their sign. I'm an Aquarian, and I can assure you I am not unemotional. Not every trait of your sign has to be true.This is a good book, and like the other reviews say, don't treat it as the FINAL word. It's not. It's just a fairly accurate reference. That's all. Don't take it too seriously.2 von 2 Kunden fanden die folgende Rezension hilfreich. accurate!Von L. Koloskythis is a very excellent

Linda the RealVon Ein KundeLinda was a true teacher. Her books, every last one of them, are spiritual primers of the highest order and for those, who want to take their seeking to a higher level, her books will give you the required , preparatory grounding and introduction. And from there, you take it to whatever level you want to go to. I cannot recommend them highly enough to anyone. The mysteries of "Gooberz" got to me in the deepest, most profoundest sense, and I desperately needed answers to some of the myriad of questions it raised and was able to locate her former next-door neighbor, Ruth Cook in Cripple Creek, mentioned in that book. Linda passed on in October 1995 from adult onset diabetes and the mystery of Sally as mentioned in "Love Signs" and "Star Signs" was never fully solved. A body was discovered but Linda never accepted the results. Her twin married that cool-sure-Scorpio mentioned in Gooberz. As for her literary legacy, it's in the hands of a company now, which produced "Relationship Signs". Though that book is quite good in understanding the synastry of charts between two persons, reading it, one is immediately struck by the fact that it's not Linda writing. This is further exacerbated by some glaring astrological mistakes, and quite frankly, I don't think Linda would have been so sloppy. Some of the sentences are definitely her's, while the rest of it is patched up together and for the less-discerning reader to come off as Linda speaking. The real Linda Goodman magic, with her innate ability to click with the reader simply isn't there. Which brings into question the authenticity of future Linda Goodman books, my own feeling is try as that company might, those books won't fly. Linda's not here but her spirit lives on and I think she would want us to take her work and push it and take it to a higher level, whatever that level may be. I don't think she meant us to be spoon-fed and perhaps the lesson of her death despite "Physical Immortality" as per "Star Signs" was for us to keep learning on our own. If there is anyone out there with more info. on Linda and her life, please do contact me. GET ALL HER BOOKS, THEY ARE WORTH IT!
