Von Matt Williamson : pfSense 2 Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised pfSense 2 Cookbook:

KundenrezensionenHilfreichste Kundenrezensionen0 von 1 Kunden fanden die folgende Rezension hilfreich. Book is excelentVon Dieter EndlSuper Buch. Genau was ich gesucht habe. Beschreibt in Fallstudien wie die Firewall zu komfigurieren ist. Kann auch als Nachschlagewerk genutzt werden.

KurzbeschreibungThis book is written in a cookbook style. Each chapter consists of recipes, each of which is composed of step-by-step instructions to complete a particular task. Each recipe also includes tips, alternatives, and references to other recipes or appropriate external sources. The book can be explored chapter by chapter or in no particular order. This book is intended for all levels of network administrators. If you are an advanced user of pfSense,

then you can flip to a particular recipe and quickly accomplish the task at hand, while if you are new to pfSense, you can read chapter by chapter and learn all of the features of the system from the ground up.
