KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Die Primavera BibelVon KundeDAS Buch fr Primavera Terminplaner (und die die es werden wollen). Zwar in Englisch aber dennoch gut "verstehbar". Sollte jeder Primaveraplaner im Regal haben.0 von 0 Kunden fanden die folgende

Rezension hilfreich. Das richtige Buch ... Von E.S.... für alle Primavera-Terminplaner und solche, die es werden wollen. Ich habe das Buch als Schulungsunterlage gekauft für Primavera-Schulungen, die ich gebe. Das Buch ist sehr umfassend, es wird so gut wie jedes Thema behandelt. Es ist in englischer Sprache. Es ist so strukturiert, dass man ohne Vorkenntnisse herangehen kann. Die Themen bauen aufeinander auf von Grundlagen der Terminplanung und des Programms zu Planung ohne Ressourcen bis zur Planung mit Ressourcen und Ressourcennivellierung. Es wird auch auf erweiterte Problemstellungen eingegangen, manch hilfreiche Tricks vermittelt. Insgesamt ein prima Fachbuch für Selbststudium und als Schulungsunterlage und uneingeschränkt zu empfehlen

Kurzbeschreibung A user guide and training manual written for Project Management Professionals who wish to learn how to plan and control projects in an established Primavera Enterprise environment with or without Resources and Roles. This book is an update of the authors Primavera P6 Version 7 book and contains updated workshops, new content and an Earned Value chapter. It has been written so it may be used with any software industry version. The book is packed with screen shots, constructive tips and contains workshops with solutions at the end of each chapter for the reader to practice the skills taught. It has been written so it may be used with either the Professional Project Management Client version or the Enterprise Project Portfolio Management Optional Client. The book is aimed at: People who wish to learn the software but are unable to attend a training course and find the software reference manual hard going. Project management companies who wish to run their own software training courses or provide their employees with an alternative text to the vendor supplied user manual. Training organizations requiring a training manual to run their own training courses. This book is a PMI Approved course and instructors PowerPoint slide shows are available to training organizations. PMI REPs may apply to have this course licensed to them and award 21 PDUs to each attendee. Primavera Systems Inc. originally asked the author to write this book and this publication is ideal for people who would like to gain an understanding of how the software operates up to an intermediate level. It covers only Primavera Versions 8.1, to 15.1 Professional Client and Optional Client. It explains some of the differences from SureTrak, P3, Microsoft Project and Asta Powerproject to assist people converting from other products. The book is designed to teach planners and schedulers in any industry how to set up and use the software in a project environment. It explains in plain English and in a logical sequence, the steps required to create and maintain an unresourced and resourced schedule. It tackles some of the more complex aspects of the software that the user manual does not address. It highlights the sources of information and the methods that should be employed to produce a realistic and useful project schedule. The book provides advice on how the many software options may be applied to projects environments and it aims to teach readers how to plan and control projects created within the software package and stays focused on explaining how to use Primavera to schedule projects by: Concentrating on the core functions required to set up an enterprise environment and how to plan and control projects. Providing command lists at the start of each chapter as a quick reference. Providing a comprehensive table of contents and index of all topics. The book is intended to be used: As a self teach book, or A user guide, or A training manual for a three day training course. About the Author: Paul Harris holds an Honours Degree in Civil Engineering obtained in the UK and is a Certified Cost Engineer through AACEI International, a PRINCE2 Registered Practitioner and a Managing Successful Programmes Registered Practitioner. He has worked in the project controls industry for a number of years and has assisted many companies in a range of industries to set up and run project controls systems. His Melbourne, Australia based company, Eastwood Harris Pty Ltd, offers project controls consulting and training services worldwide with a strong focus on Microsoft Project and Primavera software.
