Von Simon Riggs, Hannu Krosing : PostgreSQL 9 Admin Cookbook before purchasing it in order to gage whether or not it would be worth my time, and all praised PostgreSQL 9 Admin Cookbook:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Man nehme.... Ein Kochbuch ebenVon NetworkerGut strukturiert - kein Blabla sondern Fakten.Nichts fr Anfnger!Ich wrde mich freuen wenn es ein Buch in dieser Art fr OS X Server gbe das alle Fallen und Stolpersteine ausrumt. 3 Cluster auf einem Server und keine ausreichende Dokumentation und schon gar keine Anleitung

KurzbeschreibungWritten in the cookbook style, this book offers learning and techniques through recipes. It contains step-by-step instructions for administrators and developers to manage databases on PostgreSQL. The book is designed in such a way that you can read it chapter by chapter or refer to recipes in no particular order. This book is for

Sysadmins, Database Administrators, Architects, Developers, and anyone with an interest in planning for or running live production databases. This book is most suited to those who have some technical experience. **Kurzbeschreibung** Written in the cookbook style, this book offers learning and techniques through recipes. It contains step-by-step instructions for administrators and developers to manage databases on PostgreSQL. The book is designed in such a way that you can read it chapter by chapter or refer to recipes in no particular order. This book is for Sysadmins, Database Administrators, Architects, Developers, and anyone with an interest in planning for or running live production databases. This book is most suited to those who have some technical experience.

ber den Autor und weitere Mitwirkende Simon Riggs is one of the few Major Developers and Committers on the PostgreSQL database project, and is also CTO of 2ndQuadrant, providing 24x7 support and services to PostgreSQL users worldwide. Simon has worked with enterprise-class database applications for more than 20 years, with prior certifications on Oracle, Teradata and DB2. Simon is responsible for much of the database recovery and replication code in PostgreSQL, and designed or wrote many of the latest performance enhancements. He uses his operational experience to contribute to many aspects of both internal design and usability. Hannu Krosing is Principal Consultant at 2ndQuadrant and a Technical Advisor at Ambient Sound Investments. As the original database architect at Skype Technologies, Hannu was responsible for designing the Skytools suite of replication and scalability technologies. Hannu has more than 12 years experience working with, and contributing to, the PostgreSQL project.
