**Von Celeste Teal : Predicting Events With Astrology** before purchasing it in order to gage whether or not it would be worth my time, and all praised Predicting Events With Astrology:

KundenrezensionenHilfreichste Kundenrezensionen1 von 1 Kunden fanden die folgende Rezension hilfreich. This Book is Excellent!Von A.J.I'm not in the habit of recommending books, but I am so impressed with this one I have to say something. This is an expert treatment of the art of prediction; including progressions, transits, solar returns, lunar returns, nodes and eclipses. Celeste Teal truly has a way with words- she explains prediction and timing in a very logical and intuitive fashion which leads the reader to immediate application. Every word in this book is meaningful - there is no filler! The case studies are superb in illustrating the fundamental approach and the finer points of event timing. Also, throughout the book, the author presents special pearls of wisdom which are the outcome of extensive research and experience in chart prediction. This is a wonderful read, useful cover to cover, and a must have reference!0 von 0 Kunden fanden die folgende Rezension hilfreich. A wonderful reference book for the astrology student.Von Ein KundeI have been a student of astrology since 1972. I was lucky enough to have some formal classes in the beginning. Everything that I have learned about astrology since then came from books. I learned how to do

composite charts from reading Robert Hand's book. Since then I have never had one book that had so much to offer until Predicting Events With Astrology by Celeste Teal. The book is written in a way the reader can understand and follow. Celeste doesn't waste words. She hones in on a subject and explain it in a clear concise way. I have accumulated a small library of astrology books since the early 70's. Some I use constantly as reference books. Others just gather dust. Celeste's book will never get dusty on my shelves. 0 von 0 Kunden fanden die folgende Rezension hilfreich. An Easy Read Von Ein Kunde Celeste Teal's Predicting Events with Astrology has been such an easy read. One of the difficulties I've encountered in the past with astrology books is that the author may be extremely knowledgeable about astrology but is not able to pass on that knowledge in terms that is easily understood by the reader. Celeste never talks down to her readers and uses language and descriptions that even a person with little knowledge of astrology could grasp. The book provides valuable information on solar returns and progressions and other interesting topics that I had previously not known about, such as Saturn chasing the moon and the Aries point. I highly recommend it.
