KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Gut geschrieben, knnte aber umfangreicher seinVon Markus PfefferleDieses Buch ist wirklich zu empfehlen, wenn man bereits grundlegene Vorkenntnisse in .NET und ASP.NET MVC hat (z.B. aufgrund von Tutorials im Internet) aber nach einem Kompendium sucht, das einfach nochmal alle Zusammenhnge und Features von ASP.NET MVC umfassend erklrt.Die einzige Schwche ist, dass das Buch manche Themen von MVC nur oberflchlich anreißt, so dass man immer noch auf andere Quellen angewiesen ist, wenn man doch noch tiefer ins Detail gehen mchte. Aber immerhin dient es als ein guter Wegweiser durch die ASP-Landschaft, die aufgrund der von Microsoft hufigen Konzept- und Ideologie-Wechsel bei ASP zu einem recht undurchsichtigen Dschungel geworden ist.Fazit: ASP.NET wird leider zu einer Technik, die fr Einsteiger immer schwerer zu durchschauen wird - dieses Buch vermittelt

wenigstens noch einen guten Überblick. 0 von 1 Kunden fanden die folgende Rezension hilfreich. Bad condition
Despite being promised in the description, I did not receive a 'new' book, even closer to a terrible condition (hard to remove stickers, stains, dog-ears, pen stripes)
