Von James C. Bradford : Quarterdeck and Bridge: Two Centuries of American Naval Leaders before purchasing it in order to gage whether or not it would be worth my time, and all praised Quarterdeck and Bridge: Two Centuries of American Naval Leaders:

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An

enjoyable journey through the development of the US Navy. Von Alexander Morris Quarterdeck and Bridge takes the reader through a number of excellent essays that follow the navy from Valcour Island to the Mekong Delta. Though not designed to fully explain the history, Bradford selects essays that deal with specific tactical issues that directly relate to the larger scheme of naval development. One of the most interesting essays involved "War Plan Orange," the plan on how to deal with Japanese aggression. The author asserted that the Navy's planners left the Philippines to be conquered by the Japanese forces. Overall it is an excellent book, and essential to anyone interested in the study of American seapower.

Kurzbeschreibung This superb collection of biographical essays tells the story of the U.S. Navy through the lives of the officers who forged its traditions. The essayists are leading naval historians who assess the careers of these men and their impact on the naval service, from the Continental Navy of the American Revolution to the nuclear Navy of the Cold War.
