Von Shondra Hilliard : Quilla's Sky (YA Fantasy Book 1) (Quilla's Games) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Quilla's Sky (YA Fantasy Book 1) (Quilla's Games) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Very cool YA fantasy novelVon Jana BettendorffThis book revolves around Quilla Sparks, a young woman of 18, who was born with wings. She's homeschooled and has therefore never been able to lead a normal life. Her father is seldom present and her mother is at the same time her teacher and doctor. She's not allowed to show her wings let alone fly (she does it anyway but very cautiously and in the middle of the night) and is forced to annual check ups in a hidden laboratory. Everything seems rather strange in this house and it gets even stranger when Quilla is brought to a cabin where she will have to prove herself.I must say I liked this book, even though it has its weaknesses. The idea of a story that revolves around a girl, that's kept as a prisoner by her own parents just because she has an ability that nobody else has, reminded me a bit of the X-men (and I LOVE the X-men :D). So 5 stars for the idea. The problem I have with this book is that everthing happens really fast and out of the blue what confused me a bit at the beginning. For example there was no word of any fighting training before Quilla reached the cabin, it seemed like she was homeschooled like any other child. Furthermore I found it a bit strange that she talked immediately about unconditional love when Mason talked or rather wrote to her for the first time. I mean they haven't even met in person yet. Something else I did not quite understand is how Quilla could stay so calm at everything that was revealed to her before she has to leave. I probably would have freaked out at the latest in the moment when I would have found the box with the message in the woods.In conclusion I must admit that the story is quite catchy; I read it in one sitting and will probably read the next books in the series as well. I would recommend it to everybody who likes a quick, not too complicate story with a supernatural/futuristic twist for in-between.

Kurzbeschreibung**This book is Hunger Games with a Supernatural Twist****Action, Romance, and Teens with Powers**Quillas Sky is the First book in the four book series.We all know being a teenager can be pretty hard. Trying to assert your independence, find your own voice, or even to get noticed by the cute boy at school. It can suck! Imagine how hard it would be if you had freaking wings!Quilla Sparks is an awkward seventeen year old that was gifted or cursed with large birdlike wings. Sure, youre thinking that would be awesome! Who wouldnt want to fly!?! Well the first rule Quilla learns is NO FLYING!!! Not only that, she is trapped in a seemingly maximum security prison, a.k.a. her quaint suburban home. Her parents treat her more as a lab experiment than a daughter. They administrate daily tests, under the instruction of government sanctioned organization known as PRIME. PRIMEs purpose is using supernatural creatures to advance their technology. Poor Quilla would have never seen daylight if it wasnt for the tiny loophole in her phylogeny.She needs real sunlight, fresh air, and a hint of freedom to thrive. A thriving specimen is better than a dead one, they tell her, at least for now. But when Quilla puts her limited freedom to the test by accidentally flashing her feathery secret to the boy next door, Mason Price. PRIME is forced to reexamine her value in a series of deadly obstacles, her own personal Quilla Games, which pit her against mechanically modified paranormal creatures. Quilla has to push her doubt aside and discover her own strength to Progress or Die is the PRIME leader, General Hamm insists. This is the first action packed book in a four book series. Quillas Sky is a challenging, captivating and inspiring story.
