friend who is sharing the series with me. I think that Miguel and Leah make a great couple considering their characters. Jenna is just a little nosey, though considering the fact that she hasn't told them that she knows about their relationship. Melanie seems like a great person, and I feel sorry for her when she has the accident...but just wait those of you who haven't read Heart Soul. Jesse seems like a very annoying person...especially because of his problem. Nicole is a person that would probably make a good couple with Jesse, but I'm not so sure. Peter and Jenna have a pretty good friendship going and I think Peter will ruin it if he breaks his crush on Jenna.0 von 0 Kunden fanden die folgende Rezension hilfreich. There was too many characters but their stories were good.Von Ein KundeThe book had a good story, but leaving you hanging, wanting to find out what happens next isn't very nice. Since I read this book I am buying the next one in the series for you don't know if a girl dies, a girl becomes a model, or if certain romances come to be! I think I'll just find out what the conclusion is to this book in the next book then stop, before I start getting interested in more of their love stories, withdrawing food stories, and major head splitting stories. I have to say though the publishers sure had a good idea of sucking the money right out of kids like me. The stories were good and the writing was satisfactory I give this book a B-.0 von 0 Kunden fanden die folgende Rezension hilfreich. This is such a good book, but there is only one problem...Von Ein KundeI woke up one morning and had absolutely nothing to do. I went to the library, and picked a book randomly off of the shelf. It was an awesome random choice! This book combines all of the emotions, love, hate, pain, excitement, and distress. I haven't read the first one in the series, and I still got sucked into it on the first page. The only thing that I didn't like about this book is that it leaves you hanging. You never know what happens until you read the next one in the series. I think that this is just a way that the publishers get us to pay them money for buying the next book to find out what happened.
