honest American journalist reported on Mao CCP Von Steve Hann In this book, Red Star over China, Edgar Snow told everything the way it was, good and bad. Here is someone who has seen and been up close with Mao; witnessed Mao's personal life; travelled with the Red Army and discovered those "Red Bandits" really were good guys. All the myths, lies, propaganda on Mao, Red Army, and Chinese communists invented by the west and Chiang Kai-shek were shattered and exposed by Edgar Snow's truthful reporting. This is the very book that brought Nixon together with Mao, and started the China/USA diplomatic relationship. Edgar Snow was the American who peacefully helped the world's two superpowers in a peaceful solution. Edgar Snow should have been given the Nobel Peace Prize. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Snow's writing is truly captivating. Von Ein Kunde Snow truly did Sinology a tremendous favor when he ventured into the soviet area years ago. Red Star Over China stands as an archetypical example of "pre-TV" journalism at its finest. Snow's captivating writing style allows the reader to truly feel as if they are riding along with the "red bandits" as they move through the hills of China conducting guerilla warfare. What Snow has to tell us about Mao, is as fascinating as anything that has been brought up about him in the post-Mao era. I would recommend this book to anyone, it is not just a history book, it, in itself is a part of history, truly a classic. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Einmaliges Zeugnis ber Chinas kommende Fhrer Von fisherblack Snow's Buch ist ein einmaliges geschichtliches Dokument. Der seit einigen Jahren in China lebende Journalist reiste in den späten 30er Jahren mit Empfehlung von Madame Sun Yatsen nach Yunnan, wo sich die rote Armee nach dem langem Marsch abseits der Weltöffentlichkeit regeneriert und für den Kampf gegen die Nationalisten formiert. Aus seinen Gesprächen mit Mao, Zhou Enlai und vielen anderen fertigt er die erste koherente und bis heute einmalige Beschreibung der Leben, berzeugungen und Vorstellungen der zukünftigen Fhrer Chinas. Gleichzeitig ist das Buch lebendig wie ein Road Movie.

Kurzbeschreibung The first Westerner to meet Mao Tse-tung and the Chinese Communist leaders in 1936, Edgar Snow came away with the first authorized account of Mao's life, as well as a history of the famous Long March and the men and women who were responsible for the Chinese revolution. Out of that experience came Red Star Over China, a classic work that remains one of the most important books ever written about the birth of the Communist movement in China. This edition includes extensive notes on military and political developments in China, further interviews with Mao Tse-tung, a chronology covering 125 years of Chinese revolution, and nearly a hundred detailed biographies of the men and women who were instrumental in making China what it is today.
