Dieses Buch bietet viele Ideen zum Thema "Workflow"Von Markus WilhelmIch arbeite nun seit fast 8 Jahren an Webdesign Projekten und muss sagen das mir dieses Buch eine Komplette neue Herangehensweise gezeigt hat. Wie Stephan Hey schreibt, muss man selber entscheiden welche Aspekte und welche Sachen man genau fr seinen Workflow bernimmt. Aber der von ihm Beschriebene Fall ist leicht und gut verstdndlich erklrt.Ich kann das Buch jedem empfehlen, der sich mit dem Thema Responsive Design oder auch Webdesign beschftigt1 von 2 Kunden fanden die folgende Rezension hilfreich. Sehr niedrige DruckqualitaetVon Cihan KileciBei Fachlektuere geht es mir selten um die Qualitaet des Buches selbst. Da mir aber hier der Inhalt nur als mittelmaeig im Gedaechnis geblieben ist, troestet hier wirklich gar

nichts ueber die unterirdische Druckqualitaet hinweg.
