**Von Bryce THOMAS : Rhamin (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rhamin (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An enjoyable surpriseVon Helen HancoxThis book was a real surprise.I hadn't realised that we were getting a story told from the point of view of a wolf or wolves, but it worked really well. I'm not sure how accurate the tales of wolf life are but I suspect reasonably so; anyway, it was interesting to learn about wolves' lives and their hunting techniques.We follow the story from the point of view of alpha wolf Rhamin and, later, from his brother Rasci. The story takes an unusual angle when Rasci is able to communicate with the young son of a local farmer but all in all it worked

excellently. It was slow in places but never boring and I found it a refreshing read. One to recommend!

Kurzbeschreibung Rhamin is the leader of a pack. His rival, who cannot depose him, resorts to doing bad things to try, which results in a young boy, his sister and their parents entering the story. At a time when some wolves are in need of help to survive, one of the pack discovers that it can communicate with the boy and it is the relationship that builds between the wolves and the family that leads to a dangerous and exciting adventure for them all. With a good element of the paranormal and a couple of humorous characters as well, the story is told from the wolves' perspective, taking readers inside the pack so that they see everything through a wolf's eyes. Rhamin is a bestselling light, fantasy adventure with lots of danger, drama and suspense. It has an unusual twist and a knife edge climax that keeps you turning the pages to the very last page.
