Von Asghar Ghori : RHCSA RHCE Red Hat Enterprise Linux 7: Training and Exam Preparation Guide (EX200 and EX300), Third Edition (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised RHCSA RHCE Red Hat Enterprise Linux 7: Training and Exam Preparation Guide (EX200 and EX300), Third Edition (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Good book to start your trainingVon KundePros:- step-by step training for RHCSA and RHCE- full test sets are very

helpful, helps you to prepare how the real exam works
Cons:- the RHCE part is too short, some topics are not covered
0 Kunden fanden die folgende Rezension hilfreich. Seems not to be written for the actual target audience. Von CustomerFocus is on the wrong areas, the RHCE coverage is lacking. The book by Michael Jang is the better alternative.

Kurzbeschreibung RHCSA RHCE Red Hat Enterprise Linux 7: Training and Exam Preparation Guide (EX200 and EX300), Third Edition.
Highlights: Updated to the latest version of Red Hat Enterprise Linux 7
Updated to cover ALL official exam objectives for the RHCSA and RHCE exams based on Red Hat Enterprise Linux 7
Equally good for self-study and in-class training
Step-by-step exercises to accomplish tasks
Do-It-Yourself challenge labs at the end of each chapter
Concepts explained with diagrams
Commands and options summarized in tables
Exam tips included
FOUR scenario-based sample exams (TWO for RHCSA and TWO for RHCE)
TWENTY-FIVE chapters (THIRTEEN for RHCSA and TWELVE for RHCE)
Separate sections on RHCSA and RHCE
RHCSA Section (chapters 1 to 13): covers local and network (automated with kickstart) RHEL7 installations, general Linux concepts and basic tools, compression and archiving, text file editing, file manipulation and security, processes and task scheduling, bash shell features, software package administration, yum repository configuration, host virtualization, virtual machines, system boot, kernel management, system initialization and service management with systemd, local logging, users and groups, LVM and file systems, AutoFS, Swap, ACLs, firewall, SELinux, network interfaces, NTP/LDAP clients, SSH, and TCP Wrappers.
RHCE Section (chapters 14 to 25): covers shell scripting, interface bonding and teaming, IPv6 and routing configuration, NTP, firewalld, Kerberos authentication, kernel tuning, resource utilization reporting, network logging, block storage sharing with iSCSI, file sharing with NFS and Samba/CIFS, HTTP/HTTPS web servers and virtual hosting, Postfix mail SMTP, DNS, and MariaDB.
Each chapter lists major topics and relevant exam objectives in the beginning and ends with a summary followed by review questions/answers and Do-It-Yourself challenge labs.
