**Von Lawrence Wells : Rommel and the Rebel (English Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rommel and the Rebel (English Edition):

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. Fantastic Read! Lively, funny and full of information Von John Malcolm I picked this up in Louisiana, to dull the 6 hours of fly time back home to Washington DC. Wow! Frankly, I read it twice, and have passed it on to a friend, and he'd better

take good care of it. A great story, with details, intriguing situations, and thorough emotional context. A really great book. I highly recommend it.0 von 0 Kunden fanden die folgende Rezension hilfreich. What if it really happened? Von M. Cruthird It could have happened. Edwin Rommel meets William Faulkner for a pre - WWII romp through North Mississippi in search of Nathan Bedford Forrest's war waging strategy. What fun and what a great means of absorbing history in this delightful work of fiction...or did it happen?

Kurzbeschreibung In 1937 five officers of the German High Command came to the United States to study Confederate campaigns of the Civil War and visit the sites of battles. When Lawrence Wells came across an old newspaper clipping detailing the event, his curiosity triggered a spark: What if one of the German officers had been The Desert Fox himself, future Field Marshal Erwin Rommel? The story begins in New York, where Colonel Rommel and his compatriots are overwhelmed by the city's sights and smells. Exhilarated by a strange sensation of freedom Rommel watches a New York Giants baseball game and attempts to make sense of it, tours Gettysburg and Washington, D.C., and travels to Mississippi where, escorted by his interpreter, U.S. Army Lieutenant Max Speigner and a bourbon-sipping William Faulkner he roams Civil War battlefields and studies the cavalry tactics of Nathan Bedford Forrest. Four years later, with the Allied campaign going badly in North Africa, Speigner is dispatched to Egypt as an authority on Rommel. Aware of the influences Forrest's techniques have had on the Desert Fox, Speigner embarks on an ironic attempt to predict, and outwit, Rommel's own maneuvers. In a climactic encounter the pair are fatefully reunited on the battlefield, where for one breathtaking moment the power to change the course of history rests in the young Americans' hands. An engrossing story for anyone who, like me, is fascinated by tactics and strategy, and the psychology of warfare. A scene that any writer might find next to impossible to make believable would be a midnight tennis game between Faulkner and Rommel, but Wells pulls it off. (John D. MacDonald) Mr. Wells knows his Civil War history, and his ability to breathe life, texture and, more important, dimension into the reconstruction of the clash of arms makes this a unique and genuinely rewarding book (Washington Times Magazine) This highly imaginative and skillful novel belongs with the works of the true creators. (James Dickey) Explosive adventure on a grand scale.

Explosive adventure on a grand scale. (Booklist) Synopsis ROMMEL AND THE REBEL is a military adventure about the legend that Field Marshal Erwin Rommel toured American civil war battlefields before WWII. In 1937, Rommel, then a Wehrmacht infantry colonel, visits the battlefield park at Brice's Crossroads in Mississippi to study the tactics of Confederate cavalry general Nathan B. Forrest. Rommel's guide and interpreter is a U.S. Army lieutenant of German descent, Lt. Max Speigner. In 1941, when Rommel's panzers are pounding the British army in North Africa, Speigner is attached to the British military intelligence. He recognizes maneuvers inspired by Forrest and launches a desperate duel of wits with the Desert Fox.
