Ruby on Rails. They are all good, but this one is outstanding. This book answers a lot of question, which aren't answered via most books on RoR. All of the chapters start with a new app, so you don't have to read it from the beginning till the end. It kinda feels like a cookboook (PHP cookbook). It provides a great overview on many interesting topics - I have never set so many bookmarks. My recommendation: definitely buy this book if you just getting started (

Kurzbeschreibung This book is a step by step guide to learn Ruby on Rails 4.2. It includes a basic tutorial for Ruby 2.2 and is written for programmers who know at least one other programming language and are familiar with HTML.
