hochinteressantVon gaelleendlich bekommt man mal einen Eindruck, wie die Soldaten, inkl. der Psychologin, den

Krieg erleben und warum sie vllig fertig sind ,obwohl man sich (vielleicht naiv) vorstellt, dass sie doch auf alles gefasst sein mssen . Ich habe das Buch in einem Tag durchgelesen so interessant und spannend fand ich es

KurzbeschreibungWhen Lieutenant Commander Heidi Kraft's twin son and daughter were fifteen months old, she was deployed to Iraq. A clinical psychologist in the US Navy, Kraft's job was to uncover the wounds of war that a surgeon would never see. She put away thoughts of her children back home, acclimated to the sound of incoming rockets, and learned how to listen to the most traumatic stories a war zone has to offer. One of the toughest lessons of her deployment was perfectly articulated by the TV show M*A*S*H: "There are two rules of war. Rule number one is that young men die. Rule number two is that doctors can't change rule number one." Some Marines, Kraft realized, and even some of their doctors, would be damaged by war in ways she could not repair. And sometimes, people were repaired in ways she never expected. RULE NUMBER TWO is a powerful firsthand account of providing comfort amidst the chaos of war, and of what it takes to endure. Pressestimmen "A necessary...book for anyone wishing to understand." (Booklist) "Wins respect with genuine empathy." (Military Times) "Direct and honest...every page provides evidence of the long-lasting effect [Kraft's] time in Iraq has had on her." (Bloomberg.com) "Emotional and powerful, it's a piece of work that is worth sitting down with." (Palos Verdes Peninsula News) Werbetext Finally in paperback, Heidi Kraft's poignant account of tending to hidden wounds in Iraq-her patients', her colleagues' and finally her own.
